

Big-Print Stretches: the seventeen stretches of the book at full size

In the book every stretch is printed at 75% of Adams' chart. Here the same seventeen stretches are printed at 100%, the size Adams drew them in 1881. Each stretch fills four sheets of Letter paper turned sideways.

HOW TO PRINT. Choose "Actual size" (never "Fit to page") and landscape. Check the ruler on every sheet: it must measure exactly 2 inches.

HOW TO JOIN. Each sheet is labeled A, B, C or D. A is top left, B top right, C bottom left, D bottom right. Trim the right edge of A and C and the bottom edge of A and B along the dashed line, then lay the trimmed edge over the neighbor until the picture lines up. Tape on the back.

WHERE IT GOES. Hang a stretch on the wall at eye level while you read its section, or keep the four sheets in a folder behind the book. Teaching a group? Tape all seventeen in a row and you have the chart from Creation to 1881 on one wall.

Adams' Synchronological Chart of Universal History, 1881 printing (Colby & Co., New York). The chart is in the public domain in the United States; images from the public-domain scan on Wikimedia Commons (credited there to the David Rumsey Map Collection).
